NORM
ENGINEERING

4 IN 1 BUCKETS

Manufacturer of
Earthmoving Attachments for:
Skid Steer Loaders
Backhoes
Excavators

07 3376 3177

- The newly designed Norm 4 in 1 Bucket for Skid Steer Loaders features elements to make them stronger and therefore last longer than the already outstanding previous products
- A now time proven and industry proven main pivot section incorporated with other Norm original elements, give strength and durability second to none
- The Norm 4-in-1 Buckets have an optional extra heavy duty flat floor; which is not only stronger but also allows easy filling and emptying of the Bucket over the conventional hip floor design
- Smaller versions of the 4-in-1 are available for most Mini Loaders, Smaller Skid Steers and Agricultural Tractors on the market
